

REMARKS

Claims 1-24 currently remain in the application. Claims 25-28 have been canceled and claims 9 and 17 are herein amended.

Allowance of claims 1-8 is gratefully acknowledged.

The matter of Paragraph 3 of the Official Letter has been attended to by adding what is believed to be a satisfactory antecedent basis at the end of the specification by explaining in detail how the disclosure given with reference to Figs. 4 and 5 may be incorporated in the system which was generally described with reference to Figs. 1-3.

The matter of Paragraphs 4-6 regarding objection to the drawings has been attended to by canceling the reference to any specific motor means.

Objection to claim 9 has been attended to by effecting the required correction.

Objection to claim 17 has been attended to by effecting corrections on editorial errors. Together with the addition of the new paragraphs to the specification, it is believed that the instant amendment obviates the Examiner's objections.

Claims 25-28 have been herein canceled and hence the Examiner's objection thereto is now a moot point.

In summary, it is believed that the present Amendment is sufficiently responsive to the Office Action and hence that the application is now in condition for allowance.

Respectfully submitted,

Keiichi Nishimura
